888 Clinic Services

Services designed to assist Medicaid recipients of any age and their families adapt to the chronic diagnosis of diabetes, learn disease management skills, adopt realistic dietary regimens and acquire information regarding the nature of diabetes. Genetics Education Services are directed at children who have disabilities and/or developmental delays for the purpose of identifying children with or at risk of genetic disorders. Only Rural Health Clinics, Federally Qualified Health Clinics, and children's coverage are considered mandatory. Authority for this activity is contained in 42CFR Parts 430-498, State Law Title 44, 44-6-5 - 44-6-910.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide disease prevention and disease management.

Budgetary Program No.: II. A. 3. T.

Expected Results:

Decrease in further medical care and hospitalization. Increase patient education and disease management to improve quality of life.

Outcome Measures:

Increase access to care, provide early detection. Increase beneficiary utilization, and provide a medical home.
 Total Recipient: 169,371, Total Transactions 803,714

Agency: J02 - Health & Human Services Finance
 Commission

Functional Group: Health

889 Clinic Services Administration

(1) Support to providers including Outpatient Pediatric AIDS Clinics, End Stage Renal Disease Clinics, Infusion Centers, Ambulatory Surgical Centers, x-ray providers and laboratories through claims resolution & processing, policy development, interpretation & clarification, rate setting, and assisting with budget management. (2) Provide support and oversight to the Medically Fragile Children's Program (MFCP) which serves Medicaid eligible children with complex ongoing medical needs. This program provides a medical home with primary care services, care coordination, and case management services. It is currently offered in only three urban areas: Columbia, Greenville/Easley, and Charleston. (3) Provide support to providers of Preventive/Rehabilitative Services for Primary Care Enhancement (P/RSPCE) to assist clients in need of reinforcement of the medical plan of care. Provide support to providers of Infant Home Visits. (4) Provide support to Diabetes Management Providers who work with beneficiaries who have diabetes.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide disease prevention and disease management.

Budgetary Program No.: II.A.1.A

Expected Results:

Maintenance of provider base. Increase in enrollment. Provide appropriate DME for Medicaid beneficiaries.

Outcome Measures:

Provider claims resolution, responding to provider and beneficiary inquiries.

Agency: J02 - Health & Human Services Finance
 Commission

Functional Group: Health

892 Coordinated Care

Provide Managed Care options for enrollable Medicaid beneficiaries. The State reimburses Managed Care Organizations (MCOs) an actuarially certified capitated rate for enrolled members. MCOs provide a coordinated system of primary care with the goal of establishing them in a stable medical home. Additionally, the MCOs provide disease management, care coordination, and other enhanced services to improve health outcomes and reduce unnecessary higher cost services such as Emergency Room and hospitalizations. The State reimburses Care Coordination Services Organizations (CSOs) a Per Member Per Month (PMPM) fee to assist Primary Care Physicians (PCPs) in the delivery of coordinated care within a stable medical home. The goals of increasing preventative care while reducing unnecessary hospitalizations and Emergency Room usage are the same as with the MCOs. The State also reimburses the Medically Fragile Children's Programs an actuarially certified capitated rate for the delivery of a prepaid ambulatory health plan.

Statewide Result Area: Improve the health and protections of our children and adults

Agency Activity Inventory
by Agency
Appropriation Period: FY 2008-09

Strategy: Provide disease prevention and disease management.

FY 2008-09

Total	General Funds	Federal Funds	Health / Non- Recurring	CRF	Other Funds	FTEs
\$321,083,656	\$70,810,195	\$236,823,461	\$13,450,000	\$0	\$0	0.00

Other Fund - Subfund No & Title:

Budgetary Program No.: II. A. 3. V.

Expected Results:

Cost savings resulting from more beneficiaries being established with a stable medical home so that preventative care and routine primary care are provided so that more complex problems/illnesses can be avoided. Improved access to specialists and Medicaid-sponsored services. Improved health status of beneficiaries. With SC Healthy Connections Choices we expect a reduction in number of beneficiaries receiving services in a fee-for-service environment and increase in the number of beneficiaries in a stable medical home either through a Managed Care Organization or a Medical Homes Network.

Outcome Measures:

Currently, there are over 200,000 beneficiaries who have voluntarily enrolled or been assigned to one of 8 managed care plans approved by SCDHHS. The managed care rate for MCOs has a built in cost saving factor. Preliminary studies of the managed care population are showing a cost savings within the in-patient hospital category, as compared to the Fee-For-Service (FFS) population. Managed care members also had significantly fewer emergency room visits as compared to the general Medicaid population for the same time period. Once a larger shift from FFS is completed, the cost saving is anticipated to significantly increase. Of additional benefit will be the impact of disease and care management services provided by MCOs. As diseases are managed at an earlier age, with preventative measures, chronic illness should have a less severe impact on the Medicaid population. However, cost savings are significantly impacted by national factors, such as medical inflation and Medicare rate and policy changes.

Agency: J02 - Health & Human Services Finance
 Commission

Functional Group: Health

893 Coordinated Care Administration

Provides oversight and support to current Medicaid Managed Care Organization (MCO), Primary Care Case Management (PCCM) Networks, and the Medically Fragile Children's Program (MFCP).

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide disease prevention and disease management.

FY 2008-09

Agency Activity Inventory
by Agency

Total	General Funds	Federal Funds	Health / Non-Recurring	CRF	Other Funds	FTEs
\$1,136,261	\$374,516	\$705,103	\$0	\$0	\$56,642	14.00

Other Fund - Subfund No & Title:

3441 - State Agencies - Medicaid Allocation - \$10,452; 3442 - State Agencies - Special Grants - \$36,809; 35B4 - Medicaid Sponsored Workers - \$9,381

Budgetary Program No.: II. A. 1. A

Expected Results:

Provides oversight and support to current Medicaid Managed Care Organization (MCO), Primary Care Case Management (PCCM) Networks, and the Medically Fragile Children's Program (MFCP). Provides technical assistance to MCOs wanting to operate in SC and to physicians/Administrative Service Organizations (ASO) wanting to develop physician networks in SC. Develops new managed care initiatives to Medicaid program. 42CFR Part 438. in SC. Develops new managed care initiatives for Medicaid program.

Outcome Measures:

All managed care organizations must complete an extensive application process and Readiness Review Evaluation. Currently there are 7 Managed Care Organizations (MCO) and 1 Medical Homes Network (MHN). Services are available in all 46 counties. In accordance with Federal regulations (42 CFR 438), a continual quality improvement initiative is conducted under the auspices of SCDHHS. Healthcare outcomes based on current HEDIS measures are a required deliverable to DHHS, both for MCOs and MHNs. Also, all 8 entities are evaluated for appropriateness of services by a Quality Improvement Organization (QIO). The Medically Fragile Children's Program (MFCP) is currently operational in: plans are underway to transition MFCP into a statewide Medically Complex Children's Waiver. (A draft proposed C waiver has been submitted to CMS.) There is anticipation this program will be approved and be implemented during the fall of 2008. Within the development of the C waiver, quality improvement program is based on the age-appropriate HEDIS measures.

3441 - St Agencies Medicaid Allocation - \$3,644,597 ; 6006 - Matching Funds - \$51,092,104

Budgetary Program No.: II. A. 4.a.

Expected Results:

The development of an individualized plan of care for every adult with a serious mental illness and every child with a serious emotional disturbance to enhance individual living skills and to help prevent children, adolescents and their families from being institutionalized or hospitalized. Services emphasize the acquisition, development and expansion of rehabilitative skills needed to move forward in recovery, resulting in an improved quality of life for clients and their families.

Outcome Measures:

Improved functioning and safety for seriously emotionally disturbed children and for mentally ill adults. In addition to improving quality of life, this should lead to a reduction in the costs associated with the treatment of these conditions by increasing community tenure. The occurrence and severity of disabilities will be reduced where possible. Clients will function at an optimal level in the least restrictive level of care. Outcomes include a reduction in hospitalizations and emergency room visits for this population. Another measure is the extent to which coordination of care exists between public and private providers. 896 DHEC Medicaid Services

Early Intervention (EI) Services are medically necessary services provided for the purpose of facilitating correction or amelioration of developmental delay and/or disability. Conditions left untreated, would negatively impact the health and quality of life of the child. EI Services consist of the provision of Family Training and Service Coordination Services to children with developmental delay and/or disability, age 0-6 and their families. Nursing Services for Children under 21 involves the provision of specialized health care services to children needing primary health care services. Dental: DHEC's Children's Rehabilitative Services (CRS Ortho) Program provides orthodontic services for Medicaid beneficiaries that have severe birth defects which result in craniofacial anomalies such as Cleft Lip and/or Cleft Palate, Prognathism, Crouzon's Syndrome, Apert's Syndrome, Mid-face and Growth Related Skeletal Deficiencies.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide disease prevention and disease management.

900 Continuum of Care

Case Management Services and Wraparound Services are available to Medicaid eligible recipients. These services provide for coordination of care so that all CCEDC clients have planned access to the full array of medically necessary services specifically for emotionally disturbed children.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide disease prevention and disease management.

FY 2008-09

Total	General Funds	Federal Funds	Health / Non- Recurring	CRF	Other Funds	FTEs
\$10,441,690	\$0	\$7,285,167	\$0	\$0	\$3,156,523	0.00

Other Fund - Subfund No & Title:

3441 - St Agencies Medicaid Allocation - \$1,643,188; 6006 - Matching Funds - \$1,513,335

Budgetary Program No.: II. A. 4.g.

Expected Results:

Targeted Case Management services are provided to these children to ensure that their medical, developmental and safety needs are met through coordinated, comprehensive and integrated service delivery. Each client's case manager works to ensure that all needed services are delivered. Wraparound Services are provided to children under 21 years of age who have special emotional/behavioral needs and their families. Specifically, assessment, care planning, referral and linkage and monitoring and follow-up may be provided. These services are provided in order to stabilize or strengthen the child's current placement or prevent out-of-home care. Wrap-Around Services are treatment oriented and goal directed. Without the provision of Wrap-Around Services, such as counseling, therapy, temporary de-escalation care/crisis stabilization, behavioral intervention, or independent living skills, the child may be in jeopardy of placement disruption. Public and private providers provide this service.

Outcome Measures:

Youth will function better at home, at school and in the community. Outcomes include prevention of more costly and restrictive treatment options through adherence to a philosophy of community based, most normative and least restrictive services delivery and the facilitation of permanency through reunification or permanent guardianship. Another measure is the extent to which coordination of care exists between public and private providers. Other Fund - Subfund No & Title:

3441 - State Agencies - Medicaid Allocation - \$14,133; 3442 - State Agencies - Special Grants - \$49,772; 35B4 - Medicaid Sponsored Workers - \$12,685

Budgetary Program No.: II. A. 1.A

Expected Results:

To develop fair and equitable Medicaid reimbursement for inpatient and outpatient services for hospitals contracting with the South Carolina Medicaid Program based upon a federally approved rate setting methodology. Maintenance of acute care hospital provider base. Increase in enrollment. Quality health care for Medicaid beneficiaries.

Outcome Measures:

Reviewed hospital cost reports to determine Medicaid inpatient and outpatient cost to charge ratios for use in projecting interim Medicaid inpatient and outpatient cost settlements for DSH hospitals. Initiated the updating of hospital inpatient and outpatient rates to more closely approximate cost so that most of their reimbursement is received through claims payments and the cost settlement portion is less. This will indirectly increase managed care payments to hospitals.

Agency: J02 - Health & Human Services Finance
 Commission

Functional Group: Health

903 Nursing Facility Services

Provides nursing, therapy, and personal care services to individuals who do not require acute hospital care, but whose mental and physical condition requires services that are above the level of room and board and can be made available through licensed, certified, and contracted institutional facilities. This service is mandatory for skilled nursing care only. Authority for this activity is contained in 42CFR Parts 430-498, State Law Title 44, 44-6-5 - 44-6-910.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide disease prevention and disease management.

FY 2008-09

 Commission

Functional Group: Health

911 Community Long Term Care

The Community Long Term Care program provides home and community-based services to Medicaid eligible recipients who are frail and at-risk for institutional placement. There are three different waiver programs that are part of CLTC: 1) Community Choices; 2) HIV/AIDS waiver; and 3) Mechanical Ventilation Waiver. In addition, in-home personal care services for children are available as a state plan service. The CLTC staff members in the regional offices are responsible for providing medical eligibility determinations for waiver and nursing home applicants. This is a SPMP allowable activity at 75/25 federal share. In addition, CLTC provides PASAAR and TEFRA screenings, also at the 75/25 match rate. Finally, staff members perform case management activities, which are considered to be Medicaid services and reimbursable at FMAP rate.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide opportunities for employment and independence.

FY 2008-09

Total	General Funds	Federal Funds	Health / Non- Recurring	CRF	Other Funds	FTEs
\$132,925,165	\$35,922,905	\$94,332,087	\$1,950,000	\$0	\$720,173	178.00

Other Fund - Subfund No & Title:

3441 - State Agencies - Medicaid Allocation - \$132,892; 3442 - State Agencies - Special Grants - \$468,005;
 35B4 - Medicaid Sponsored Worker - \$119,276

Budgetary Program No.: II. A. 3. G.

Expected Results:

The expected result for all programs is that the combination of home and community-based services will allow individuals the freedom to remain at home in their chosen environment without endangering their health and safety. In addition, this care should be provided at a lower cost to the taxpayers than nursing home and other institutional care.

Agency Activity Inventory
by Agency
Appropriation Period: FY 2008-09

Outcome Measures:

Annual CMS 372 reports will document cost effectiveness for all waiver programs. Satisfaction surveys will show high levels of program satisfaction across waiver programs. Service packages are individualized to meet participant needs and reflect assessed and identified needs.

Agency: J02 - Health & Human Services Finance
 Commission

Functional Group: Health

912 Community Long Term Care Administration

Provides support to CLTC and waiver services providers participating in the Medicaid program through claims resolution & processing, policy development, interpretation & clarification.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide opportunities for employment and independence.

FY 2008-09

Total	General Funds	Federal Funds	Health / Non- Recurring	CRF	Other Funds	FTEs

Family planning services are available to all Medicaid recipients and include all medical and counseling services related to alternatives of birth control and pregnancy prevention services prescribed and rendered by physicians, hospitals, clinics, pharmacies and other practitioners and other Medicaid providers. Family planning services are a mandatory service, Authority for this activity is contained in 42CFR Parts 430 498, State Law Title 44,44-6-5 - 44-6-910. The State also participates in a Research and Demonstration Project with the Centers for Medicare and Medicaid that is referred to as the family Planning Waiver (FPW). Under The FPW, the state reimburses providers for Family Planning Services for women of reproductive age with income at or below 185% of the Federal Poverty Level (PVL). The FPW targets two population groups: (1) postpartum women who transition to the waiver from the Optional Coverage for Women and Infants (OCWI) may receive 12 months of family planning eligibility.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide for greater incentives to promote healthy lifestyles.

Other Fund - Subfund No & Title:

3441 - State Agencies - \$18,000

Budgetary Program No.: II. A. 3. N.

Expected Results:

Medicaid eligible persons have access to services that will reduce the number of unintended and unwanted pregnancies resulting in births reimbursed under the SC Medicaid program. The goals are as follows: 1. Assure that all women who want and need publicly supported family planning services receive such services. 2. Increase the age at first birth among all women eligible for family planning services under the waiver. 3. Reduce the number of unintended and unwanted pregnancies among women eligible for Medicaid. 4. Reduce Medicaid expenditures for unintended and unwanted pregnancies by investing in family planning preventative services for women at or below 185% of poverty. 5. Promote partnership with community health centers for primary medical care homes for waiver participants.

Outcome Measures:

Increase the number of family planning recipients and the number of family planning visits to decrease the number of unwanted/unintended pregnancies.

939 Palmetto Senior Care

PACE is a Medicaid State Plan program of comprehensive care that allows the frail elderly to live in their communities. PACE serves individuals age 55 and older who meet nursing facility level of care at Day Health Centers in specific counties, and who can be safely cared for in the community. PACE is a national program with benefits under Medicare and as an optional state benefit under Medicaid that focuses entirely on older people who are frail enough to meet their state's standards for nursing facility care. The program brings together all the medical, functional and social services needed for someone who otherwise might be in a nursing facility.

Statewide Result Area: Improve the health and protections of our children and adults

Agency Activity Inventory

Other Fund - Subfund No & Title:

Budgetary Program No.: II. A. 3. W.

Expected Results:

Under the terms of the program, PACE is required to be a cost-effective alternative to nursing facility care, providing total care at less than the average composite cost of the nursing facility rate and Community Choices HCB waiver expenditures. *An interdisciplinary team of health professionals assesses the participant's needs, develops a comprehensive plan of care and provides for total care. Generally, services are provided in an adult day health center, but also may be given in the participant's home, a hospital, long-term care facility, or in a nursing facility. There is no co-pay, deductible or limit on services as authorized by the Interdisciplinary Team. Enrollment is voluntary, and once enrolled, PACE becomes the sole source of all Medicare and Medicaid covered services, as well as any other items or medical, social or rehabilitation services the PACE interdisciplinary team determines an enrollee needs. If a participant requires placement in a nursing facility, PACE is responsible and accountable for the care and services provided and regularly evaluates the participant's condition.

Outcome Measures:

PACE operates under a risk-based capitated reimbursement methodology and receives fixed monthly payments from Medicare and Medicaid for each participating beneficiary, depending on their Medicare and Medicaid eligibility. The payments remain the same during the contract year, regardless of the services a participant may need. Overall costs must remain less than the average composite costs of the Medicaid nursing facility rate and the Community Choices HCB waiver.

942 Medicaid Eligibility

Medicaid Eligibility determination is the primary activity of the 46 county offices of DHHS and the Central Eligibility Processing Division. All applicants for the SC Medicaid program must complete and submit a Medicaid application by mail or in person to an office of DHHS. The DHHS office staff approves or denies applications based on a combination of state and federal income and resource requirement and guidelines. Once approved, individuals are eligible to receive covered medical services, including hospital and doctor visits and prescriptions from an enrolled Medicaid provider until determined to no longer meet program requirements.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide increased access to insurance and private payment for healthcare.

FY 2008-09

Total	General Funds	Federal Funds	Health / Non- Recurring	CRF	Other Funds	FTEs
\$47,883,939	\$11,672,343	\$27,453,953	\$0	\$0	\$8,757,643	497.50

Other Fund - Subfund No & Title:

3441 - State Agencies - Medicaid Allocation - \$104,254; 3442 - State Agencies - Special Grants - \$4,624,112; 35B4 - Medicaid Sponsored Workers - \$3,303,090; 4479 - Indigent Care - \$240,000; 6006 - Matching Funds - \$486,187

Budgetary Program No.: II. A. 7 and II. A. 2.

Expected Results:

Medicaid eligibility is expected to be determined in an accurate and timely manner. Eligibility staff in the local offices located in each of the 46 counties and the Central Processing Division are expected to provide Medicaid eligibility information and Medicaid applications to the general public; make initial eligibility determinations and re-determinations within 45 days of receipt of a signed application or renewal form (up to 90 days for disability determinations); and accurately and efficiently approve or deny eligibility.

Outcome Measures:

Outcome is measured by timely and accurate determination and redetermination of eligibility for Medicaid, including State Children's Health Insurance Program (SCHIP), Optional State Supplementation (OSS), Family Planning Waiver (FPW), and GAP Assistance Pharmacy Program for Seniors (GAPS). The timeliness standard for determining eligibility is 45 days, 90 days for cases involving a determination of disability. Key indicators are a 97% accuracy rate for determining eligibility; determinations made within 45 days or 90 days for disability cases; and timely annual re-determination of eligibility so that beneficiaries who re-qualify remain eligible and continue to receive services and those who no longer qualify for Medicaid are promptly removed from the

943 Medicaid Eligibility Support

The Medicaid Eligibility Determination System (MEDS) is used to determine and track eligibility. MEDS assists in determining eligibility and in the tracking of applications, reviews, notices and other processes related to Medicaid eligibility. MEDS User Services provides Help Desk support for MEDS, defines system enhancements, and resolves user problems. The MEDS Department of Interfaces is responsible for problem resolution, system enhancements, and responding to SSI and Buy-In beneficiaries regarding eligibility issues. A toll free hotlines offers eligibility information and eligibility and claims problem resolution to the 800,000 plus SC Medicaid and SCHIP recipients. The Policy and Oversight bureau develops and revises statewide policies and procedures, to ensure compliance with state and federal requirements. The area creates and maintains forms and brochures, and responds to beneficiary, legislative and non-legislative written and email correspondence. The Bureau manages all quality assurance activities for the eligibility area.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide increased access to insurance and private payment for healthcare.

FY 2008-09

Total	General Funds	Federal Funds	Health / Non-Recurring	CRF	Other Funds	FTEs
\$3,871,816	\$1,251,693	\$2,071,502	\$0	\$0	\$548,621	73.50

3441 - State Agencies - Medicaid Allocation - \$15,402; 3442 - State Agencies - Special Grants - \$45,225; 35B4 - Medicaid Sponsored Workers - \$487,994

Budgetary Program No.: II. A. 7 and II. A. 1. A

Expected Results:

The Medicaid Eligibility Determination System (MEDS) is used to determine and track eligibility. MEDS assists in determining eligibility and in the tracking of applications, reviews, notices and other processes related to Medicaid eligibility. The Division of MEDS in the Bureau of Information Systems has application analysts that work closely with Clemson University staff where MEDS is housed and with staff from the Bureau of Program Support and eligibility staff to identify, design, test and implement needed or required enhancements to the MEDS. These enhancements are documented and prioritized through a System Request (SR) Process. The policy and procedures manual provides guidance for the 500 plus eligibility professionals performing the eligibility function. The constituent services groups answers constituent concerns regarding coverage and claims resolution. Program Quality assurance directs and monitors program accuracy and customer service.

Outcome Measures:

Help Desk reports are run periodically to determine timeliness standards. Almost 94% of calls are resolved within 1 day. Another report identifies why a call was made. The call description report is monitored. Other reports identify the number of outstanding calls or calls that have been closed within a certain time period. System

Agency Activity Inventory by Agency Appropriation Period: FY 2008-09

enhancements are identified and are monitored closely by agency and contractor staff bi-weekly. Enhancements are worked according to their priority level. Interface supervisors closely monitor alert activity to ensure alerts are handled in a timely manner. Each worker is responsible for resolving a particular type of alert. Buy-In manual accretions are performed by each staff member. Daily resource center reports provide the number of calls received, answered and the time to resolution of the call. The policy Manual is updated as needed but generally not less than monthly. QA results are used to determine if policy is clear and concise. QA outcomes expected to yield a 97 % accuracy rate. Outcome measures are based on accurately determining eligibility within the required timeframes.

35B4 - Medicaid Sponsored Workers - \$12,062

Budgetary Program No.: II.A.1.A

Expected Results:

Medicaid claims are adjudicated and payment is made to the Medicaid provider of service for the enrolled recipient for which the service was performed. The Medicaid Management Information System (MMIS) is used to adjudicate and pay Medicaid providers for services rendered and billed for Medicaid recipients. The Division of MMIS Systems Management and the Division of MMIS System Support in the Bureau of Medicaid Systems Management has analysts and data coordinators that work closely with Clemson University staff where MMIS is housed, outside vendors and with program staff to identify, design, test and implement needed or required enhancements to the MMIS. These enhancements are documented and prioritized through a Request for Change (RFC) Process. The Office of Reporting, Research and Special Projects create analytic studies and other specified reports for SCDHHS management using the Thomson Reuters Decision Support System (Advantage Suite).

Agency Activity Inventory
by Agency
Appropriation Period: FY 2008-09

Outcome Measures:

MMIS claims are paid timely and accurately. Claims are normally paid within 14 days of submission. Decision support system is available 24/7, with little interruption of service. IVRS, Web claims tool and HIPAA translator systems are available for use by providers, with minimal downtime or problem issues.

946 Audits/Compliance

Agency Activity Inventory
by Agency
Appropriation Period: FY 2008-09

Bureau of Compliance and Performance Review, with 3 divisions: Program Integrity, Audits, and SURS. Code of Federal Regulations (42 CFR 455.12 - 455.21) requires the state Medicaid agency to have methods and criteria for identifying and investigating cases of Medicaid fraud and abuse. The Division of Program Integrity conducts desk audits, on-site reviews, and preliminary fraud investigations of Medicaid beneficiaries and providers, and refers suspected fraud cases to the Attorney General's Office. Cases of suspected fraud and abuse are identified through complaints, the Fraud Hotline, and on-going data analysis conducted as part of the agency's Surveillance and Utilization Review System (SURS). The Division of Audits monitors compliance with Medicaid contracts; reviews State Agencies' claims for Medicaid reimbursement; audits Medicaid cost reports, and reviews internal controls. Eligibility Quality Assurance, also required under 42 CFR, monitors the accuracy of eligibility determinations; communicates findings to eligibility staff for corrective measures and reports error findings to CMS.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide increased access to insurance and private payment for healthcare.

FY 2008-09

Total	General Funds	Federal Funds	Health / Non-Recurring	CRF	Other Funds	FTEs

3441 - St Agencies Medicaid Allocation - \$14,519; 3442 - St Agency Special Grants - \$78,526; 35B4 - Medicaid Sponsored Workers - \$59,015

Budgetary Program No.: I.

Expected Results:

Improved identification and increase in investigations of abusive and excessive Medicaid billings by health care providers; decrease in inappropriate use of Medicaid funds by state agencies; reduction in excessive and inappropriate use of prescription drugs and other benefits by Medicaid beneficiaries; development of a Medicaid payment accuracy rate. Improvement in cost savings by increasing recoupments and avoiding future inappropriate costs. To determine the number and types of errors made by agency staff when determining initial and continuing eligibility; and to report error findings to the Centers for Medicare and Medicaid Services and agency management.

Outcome Measures:

Results for FY 08. Program Integrity/SURS: Opened 365 new cases on providers and beneficiaries for fraud and abuse investigations; closed a total of 330 cases. Recoveries of Medicaid dollars resulting from waste, fraud and abuse investigations increased slightly, about 1%, but the amount of fraud and abuse identified more than doubled due to the use of enhanced data analysis techniques. Referred 10 providers and 244 beneficiaries to the SC Attorney General's Office for fraud. Division of Audits: Completed 4 audits and approximately 35 desk reviews, reviewing more than \$80 million in Medicaid funds reimbursed to other state agencies and contractors.

948 Agency Administration

Agency administration includes Financial Management, Rate Setting, Human Resources, Public Information, Procurement and Support Services, Civil Rights Management, Contracts Management, Appeals and Hearings, Security and Building Maintenance, and Legal Services. Financial Management develops, implements, and manages the agency budget; directs all aspects of the agency's financial accounting operations; provides financial and fiscal impact analysis and consultation on Medicaid issues agency director, staff, Governor's Office, General Assembly, State Budget Office, and other external entities. Rate Setting develops and adjusts reimbursement rates for health care providers. Human Resources manages the personnel functions of the agency in the areas of classification, compensation, recruitment, benefits, employee relations, training, and development. Public Information provides answers to questions presented to the agency by the general public, the news media, and elected officials. It provides legislative liaison, assures agency compliance with the Freedom of Information Act, and helps the agency meet federal mandates that all Medicaid policy changes receive a recommendation from the South Carolina Medical Care Advisory Committee. It accomplishes its activities in person, over the telephone, by letter, through the news media, and via the Internet. Procurement and Support Services: Responsible for coordinating and evaluating procurements and

Agency Activity Inventory
by Agency
Appropriation Period: FY 2008-09

contractual arrangements for the agency. Administers the agency policies related to postal, supply, fleet, and property management. Contracts Management: Directs the solicitation, development and management of contracts and Medicaid Services that legally bind DHHS and the provider based upon state and federal regulations. Appeals and Hearings: To provide fair hearings to Medicaid applicants and recipients who have received a negative decision from the Department that they believe is the result of error of fact or law. Provides fair hearings to providers who have a dispute with the Department over payment of claims, contract termination, nursing home reimbursement rates, etc. Provides fair hearings to any resident of a Title XIX facility that has proposed transfer or discharge of the resident.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Administration

FY 2008-09

Total	General Funds	Federal Funds	Health / Non- Recurring	CRF	Other Funds	FTEs
\$13,680,511	\$5,314,357	\$7,328,547	\$0	\$0	\$1,037,607	170.34

Other Fund - Subfund No & Title:

3441 - State Agencies - Medicaid Allocation - \$37,701; 3442 - State Agencies - Special Grants - \$443,873; 35B4 - Medicaid Sponsored Workers - \$556,033

Budgetary Program No.: I.

Expected Results:

The agency maintains appropriate levels of accountability and control over its financial assets, pays bills promptly, and complies with applicable laws, regulations and policies. Prompt and accurate responses to financial data requests provided in a clear and understandable format. Rate Setting: (1) - To develop fair and equitable Medicaid reimbursement rates for all non-institutional Medicaid services based upon a federally approved rate setting methodology, as well as review budgets for agency administrative contracts for compliance with state and federal regulations concerning allowable costs. (2) - To oversee the development of fair and equitable Medicaid reimbursement methodologies that adequately reimburses Medicaid providers, comply with applicable state and federal regulations, and limit expenditures within the appropriated dollars. Human Resources complies with all State and Federal human resources laws and regulations. Procurement and Support Services: Procurements will be completed in accordance with SC Consolidated Procurement Code. Accountability of property management, postal, and supply is ensured. Contracts Management: Medicaid contracts are completed based upon the SC Consolidated Procurement Code, state and federal regulations. Appeals and Hearings: To provide fair hearings in accordance with the federal and state laws and regulations and to render decisions based on the facts and applicable law/policy outcome to ensure eligible citizens receive the services they are entitled to and providers are reimbursed correctly.

Outcome Measures:

Rate Setting - Reviewed FY end cost reports of various provider types to determine the aggregate annual cost increase incurred by certain provider groups participating in the SC Medicaid Program, as well as determine updated Medicaid rates and appropriate Medicaid reimbursement for FQHCs, Group Homes, State Agencies, and other Behavioral Health Services. Additionally, RHC and Home Health cost reports were reviewed to establish updated Medicaid rates and proper Medicaid reimbursement based upon Medicare rate information. Lastly, contract budget checklists were reviewed to ensure that costs claimed for reimbursement were allowable in accordance with state and federal regulations.

Budgetary Program No.: II. A. 3. Y.

Expected Results:

South Carolina will be charged by CMS a monthly amount for the Medicare Part D program for the dual eligibles.

Outcome Measures:

Expenses incurred by the state should result in a limited gain for the state.

1745 Wil Lou Gray Opportunity School Medicaid

Wil Lou Gray provides Nursing Services for Children Under 21. Nursing Services for Children Under 21 are those specialized health care service including nursing assessment and nursing diagnosis; direct care and treatment; administration of medication and treatment as authorized and prescribed by a physician or dentist and /or other licensed/authorized healthcare personnel; nurse management; health counseling; and emergent care. Other services include transportation for eligible beneficiaries to and from off-site covered- Medicaid services, and Speech-Language Pathology services.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide for an increased number of providers in underserved areas.

FY 2008-09

Total	General Funds	Federal Funds	Health / Non- Recurring	CRF	Other Funds	FTEs
\$110,827	\$0	\$77,324	\$0	\$0	\$33,503	0.00

Other Fund - Subfund No & Title:

6006 - Matching Funds - \$33,503

Budgetary Program No.: II. A. 4. M.

Expected Results:

Wil Lou Gray Opportunity School will identify, coordinate and provide nursing assessment and direct treatment services for Medicaid eligible children under 21 through periodic medical screenings. The Speech Language Pathologist identifies, coordinates, and treats medical conditions to increase level of functioning.

1840 SC State Housing Authority

The South Carolina Department of Health and Human Services (DHHS) is the State Medicaid agency. It directly administers three home and community-based waiver programs for individuals who otherwise would need institutional care. As is the case in many other states, one waiver service is home modifications, wherein minor home repairs are made to waiver participants. These modifications can mean the difference between being able to remain at home or in having to go to a nursing home or

some other institution. This is a description of issues that South Carolina has faced and how these have been addressed.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide timely and effective interventions when safety is compromised in the home or family.

FY 2008-09

Total	General Funds	Federal Funds	Health / Non-Recurring	CRF	Other Funds	FTEs
\$704,863	\$0	\$491,783	\$0	\$0	\$213,080	0.00

Other Fund - Subfund No & Title:

3441 - St Agencies Medicaid Allocation - \$213,080

Budgetary Program No.: II. A. 4. P.

Expected Results:

The result of this partnership has been that many participants have received home modifications. In many cases, their dwellings are in substantial need of repair for them to be able to stay safely in their homes. While funds cannot be used for very general home repairs, these funds can and are being used to fix floors that are in grave need of repair, widen doors to allow wheelchair access, providing limited weatherization and other needed repairs.

Outcome Measures:

In the last three years, CLTC has identified shortcomings in its system and made moves to address them. The first was to have a dedicated staff position assigned to oversee providers of home modification services. The second was in getting a partnership with the State Housing Authority. These moves have increased accountability and have benefited many needy waiver participants.

1841 Child Health Insurance Program (CHIP)

SCHIP - Title XXI of the Social Security Act is jointly financed by the Federal and State governments and administered by States. SCHIP provides a capped amount of funds at a higher match rate than Medicaid (Title XIX) provides, to initiate and expand the provision of child health assistance to uninsured, low-income children. States may provide coverage by expanding Medicaid or creating a separate program or a combination of expansion and a stand-alone program. South Carolina presently provides SCHIP coverage through both an expansion and a Separate Children's Health Insurance program. The expansion was initiated in 1997 and the Separate SCHIP group in 2008

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide increased access to insurance and private payment for healthcare.

FY 2008-09

Agency Activity Inventory
by Agency
Appropriation Period: FY 2008-09

Total	General Funds	Federal Funds	Health / Non-Recurring	CRF	Other Funds	FTEs
\$103,453,216	\$22,215,846	\$81,095,763	\$0	\$0	\$141,607	35.00

Other Fund - Subfund No & Title:

3441 - State Agencies - Medicaid Allocation - \$26,131; 3442 - State Agencies - Special Grants - \$92,023; 35B4 - Medicaid Sponsored Workers - \$23,453

Budgetary Program No.: II. A. 3. Z.

Expected Results:

Reduce the number of uninsured children in South Carolina by increasing the number of targeted low-income children in Medicaid and SCHIP. Increase access to primary care and lessen the use of emergency room care by limiting emergency room visits to only emergent conditions and situations. Increase access to continuing well child care by increasing the number of children with Medical homes.

Outcome Measures:

Compare the number and percentage of uninsured children at yearly intervals with the baseline numbers in existence at the start of the expansion and at the creation of the Separate Children's Health Insurance Program. Compare use of the emergency room visits at baseline versus to use of emergent care at defined intervals. Target 4%. Measure the number of well child visits and compare with baseline data. Look for ongoing increases. Currently, 3 MCOs operate SCHIP programs in 46 counties with a fourth MCO being added in August, 2008. July 2008 enrollment is at 3,261, with a maximum expected enrollment for SFY09 of up to 78,000 children. The development of age appropriate HEDIS based healthcare outcomes and quality improvement measures have been completed and will be implemented in the coming year.

1914 Health Opportunity

A Health Opportunity Account (HOA) is a new Medicaid option that rewards participants for making good decisions about their health care. This is a pilot program and will only accept 1000 participants from Richland County on a first come, first serve basis and with certain limits based on current age or health status. Participants will have an account created for them with \$2,500 for each eligible adult and \$1,000 for each eligible child.

Statewide Result Area: Improve the health and protections of our children and adults

Strategy: Provide disease prevention and disease management.

FY 2008-09

Total	General Funds	Federal Funds	Health / Non-Recurring	CRF	Other Funds	FTEs
\$2,500,000	\$0	\$1,750,000	\$0	\$0	\$750,000	0.00

Agency Activity Inventory
by Agency
Appropriation Period: FY 2008-09

3110 - Health Opportunity Account - \$750,000

Budgetary Program No.: II. A. 6. O.

Expected Results:

The HOA will allow participants to manage their own health care. When the individual becomes ineligible for Medicaid they will be able to spend most of what is left in the account for education, job training, or other medical expenses.

Outcome Measures:

The alternative benefit plan pilot should prove the feasibility of Flexible Benefit Plans for the Medicaid population.
